#### How to care my hair?

Keep the hair clean by washing once a week with warm or cool water. Do not wash hairs too often this will dry the hairs out.

Wash the hair immediately after swimming, spa, and excessive exercise. When dirt and sweat accumulate, hair will tangle.

Reduce the amount of stress on the hair and weft by making a couple of big braids when going to sleep, swimming or exercising (comb through the hair before making braids).

Never sleep on wet hair. Make sure your hair is completely dry before going to bed.

Make sure to brush the hair daily and always start from the ends and work your way up. For curly or kinky curly hair, do not use comb to brush the hair, instead, apply a leave-in conditioner as well as a curl activator so the hair is soft and moist and does not frizz and dry.
