How to place the order:

Pick the style you want on our website or according to your needs.

Contact us by email or messenger, and finish the order form after getting it or list the specification for us.

Send the finished order form back to us. Then choose the payment way you prefer. We will give your the total amount and payment information.

Give your personal information to us and then we will arrange your products after we receive your money.

We will keep you informed the tracking number as soon as the order is ready and sent out.

Receive our hair products and enjoy them.

FAQ

Q1: How to tell human hair with synthetic hair?

A: Human hair has natural protein, it is easy to tell by burning and smelling, human hair will be ash, which will go away after pinching, will smell foul when burning and will show white smoke. While synthetic hair will be a sticky ball after burning and will show black smoke, moreover, human hair may have few gray hair and split end, it is normal and not a quality problem.

Q2: Why the colors of hair extensions don't seems exactly as the pictures show or description says?

A: Different monitor have different display. And every time, maybe the same color No. will have a little color difference. Please ask a help from the hair dresser for the colors code as the international color swatch says.

Q3: Can they be straightened, curled?

A: Treat the hair as if it is your own. Use a flat iron/straightener or tongs, even when fitted, but as with your own hair, never use hot tools too often as you could dry the hair and it will not last as long.

Q4: Can I dye or color the human hair?

A: Yes. The hair can be colored. As a general rule it is easier to darken the hair than to lighten the hair. We highly recommend having your hairdresser dye the extensions as you will get the results you want. Coloring them yourself sometimes poses a high risk of not coming out the shade you want. If you can not get to a salon, please use a good quality hair dye and test a small sample first.

Q5: Can I wash & blow-dry the hair extension?

A: You can wash them as your own hair with shampoo and conditioner. We also recommend to use a hair treatment on them every few weeks, because the hair is not attached to your scalp, it is not getting the nutrition as usual. Using a treatment/hair mask will need to wash your extensions regularly, about every 3 weeks. The extensions can be blow-dried on low setting, but it is not recommended to do it too often. It is best to let your hair extensions dry naturally after washing.

Q6: Do the human hair closure have bleached knots?

We only do lightly bleached knots while heavy bleached knots will cause shedding problem.

Q7: Why are my hair extensions getting tangled?

Your Hair Extensions can tangle due to dryness, oil or dirt build-up, salt water, chlorine and not combing (wide tooth comb) out your hair daily. Make sure to wash & condition your hair at least once a week, twice a week is better. Use hydrating drops or consult your stylist for more help.

Q8: How long does it last?

A : This hair can last for a very long time depending on how you maintain it. Treat it like your own hair and take very good care of it for lasting longer.
