Hair protection guides:

- 1) before put the hair on, first put the hair in warm water with shampoo and hair conditioner for 10 minutes around!
- 2) then take the hair out of the water. and put it in the house to dry it.but remember do not put the hair under sunlight, don't blow with hair dryer.let it dry naturally.
- 3) don't brush the hair when it is still wet! when it is dry, you can bursh the hair from bottom to up gradually!
- 4) If the hair is curly or wavy hair, you can use the soft rollers to make the hair wavy and put it there for one night. then put the hair on!
- 5) after using 2 weeks around, you can take the hair out and wash it as before!
