##### 2. Hair Smell

Our hair is 100% chemical-free, we do not only care about beauty but also our customer's health :) But we do wash the hair when we produce it, there maybe a little shampoo smell on it. But please don't worry, the smell will disappear after washing with shampoo and conditioner.

##### 3. About Shedding

We highly recommend that you seal the weft when you get the hair. When the factory workers sew the hair pieces into a bundle, there might be several short pieces that aren't attached to weft, that's not shedding. The wefts are double machine weft to prevent possible shedding, if you have to cut the weft to adjust the hair volume for your installation, please seal the edges of the wefts to avoid shedding.

##### 4. About Tangle

Hair tangle due to dryness, oil/dirt built up, salt-water, chlorine and not comb daily. Make sure wash&conditioner with your hair once a week. Use Argan oil/Olive oil to keep your hair moisture and nutrition.

### 5. Dye and Curl

It is human hair, so could be dyed and iron-flat, when iron flat it, please don't exceed 150 , or the hair will be destroyed. Due to there are so many different color Conditioners in the market, we recommend you test a small portion of hair before coloring or perming the entire bundles.

### 6. Hair Care Products

Treat the hair as your own hair, use the good shampoo and conditioner. Conditioning is very important to keep the hair soft and manageable, let it on the hair 5-10 minutes and air dry instead of blowing.
