Better quality

1. Double layers weft much stronger to prevent the hair shedding.
2. Full cutides intat and alighed to prevent hair tangle Natural color, can be dyed.
3. Absolutely full thick hair bottom smooth and no split end.

RFQ

1. How to tell the difference of Human & Synthetic hair?

It's easy to tell the difference via Burning & Smelling.

The synthetic hair will be a plastic ball after burning but the human hair will be ash and gone away.

The synthetic hair will be a chemical smell during burning but the human hair smells like protein.

2. Will the hair get Tangle & Shedding?

Tangle:

The hair material we selected is high quality human hair, cuticles intact and runs the same directions, it will not get tangle.

Shedding:

The hair weave was sewed in double weft and used the high quality South Korean Weft Glue which is STRONG enough to avoid the shedding problem.

3. Can I Dye & Bleach the hair?

Yes. Virgin hair is without any chemical treatment that is like our own hair.

We suggest that you could dye & bleach the hair under the professional guide or via the local hair stylist if you were worried to damage the hair.
