#### Product Description

##### LKK design results and solutions

1. The integration and simplicity of design, while effectively improving product safety, is more perfect for the aesthetic taste of young children.
2. The design of the module is surrounded by a chamfered design. While using the color matching process, the children can also feel the thinness of the watch. At the same time, safety and ease of use are also the core design concepts of this product.
3. Six bright colors and matching will surely make the children love it.
