Competitive Advantage:

The human hair industry is extremely lucrative. In fact, it's a multibillion dollar market. Hair is so prized that in one extreme case, the hair on a woman's head was literally cut off by a gang. It goes toward the making of wigs, hair extensions, and fake eyelashes, as well as fertilizers and amino acids used to make dough (for pizza and bagels).

2. The majority of human hair used in wigs and extensions comes from India and China. Religious people make pilgrimages to temples such as the Venkateswara Temple in Tirumala, India, where they shave/tonsure their heads in a ritual of devotion. Hundreds of barbers shave a new person's head every five minutes, leaving "bloody scalps and hair balls" all over the ground. The temple takes these strands, which can get up to 30 inches long, and sells them at auction.

Tips for hair-caring:

These tips can help you keep peruvian hair looking fabulous and lasting longer.

1. Prior to the installation of your hair extensions, for extra protection of your weft, we recommend you seal your weft! It will eliminate shedding and add longevity to your investment.
2. To prevent tangling problem, do not use some sticky hair oil.
3. If you swim a lot, I recommend you wear a swim cap. Because the hair will be damaged by Chlorine water in the pool.
4. It's necessary to co-wash the hair after coming back from club or party.

Daily Maintenance:

1. Use styling products minimally to avoid build up.
 2. For Wavy & Curly hair use a spray bottle of water for natural look.
 3. For a "WET"look, we suggest a leave in conditioner & water.
 4. AVOID ALCOHOL BASED PRODUCTS TO AVOID DRYING OUT YOUR INVESTMENT!
 5. Dampen hair with a water bottle.
 6. Comb through (wide tooth comb) beginning at the ends and working your way up to your scalp.
 7. Scrunch up hair gently to reform curls.
 8. Let hair air-dry.
 9. Style as desired.
- Peruvian hair with baby hair will not shed if you can care it well everyday, it will last for at least a year.
