Comfortable Low Blue Home Computer Desk Task Staff Mesh Fabric Office Chair

Treat yourself to complete ergonomic adjustability even including a fully adjustable elastic mesh head/neck rest. Top quality, heavy-duty components enable us to offer this chair a guarantee for 24/7 applications and users up to 350 lbs.

advantage

The health benefits of the chairs without plywood using can better support work in the office and home Prolonged sitting has almost become a taboo in the past years with new research findings showing its health risks including greater risk on hernia, colon cancer, heart disease and mushy abs. We still claim combination of working and rest, seating and standing. We ensure that you sit on healthy seat by our technical innovation, that is we use steel wire for supporting without using plywood board which requires glue to paste the foam and seat board. The recoverability rate of the material can reach 98%. This technique ensures the chair more environmental and healthy. With the structure, it has a better breathability, resilience and comfort. The chair features a high-quality, molded foam to provide support. It feels a little firm at first but gets more comfortable after extended use. And the chair ensures great comfort, whenever you use it for work, snap or rest, it is always comfortable.
