Advantages

The curved headrest design can fit your neck and head tightly, helping you release the pressure on your neck. While the soft thick cushion is made of high density foam, which is more suitable for long-time sitting. What's more, the seat is wide enough for people of all body types to sit down. The breathable mesh back on this ergonomic office chair is made of nylon which keeps the air flowing on your back, prevents moisture and body heat build-up, gives you cool and comfortable for long-term sitting. The desk chair take aluminum alloy as base which can bear maximum weight of 330lb and ensure the ergonomic office chair serving for long time. Heavy-duty metal gas lift passed the SGS.

What kind of office chair is more comfortable?

You can easily set this office chair up according to the installation guide. The assembly time of the swivel chair is about 15 to 20 mins.
