

Straight Molded Waterproof Cable Connector 4P Coding A Female M5 Connector

Our Product Introduction

for more products please visit us on ladyshairextensions.com

Basic Information

- Place of Origin: 00
- Brand Name: 2
- Certification: 3
- Model Number: zz
- Minimum Order Quantity: 100
- Price: Ten thousand dollars
- Packaging Details: 付款方式
- Delivery Time: 供 能力
- Payment Terms: 期限
- Supply Ability: 常 包装

Product Specification

- Model Number: M8 V- And Y- Cables
- Certification: CE,RoHs,IP68,IP69
- Rated Voltage: 60/125/250 V AC/DC
- Material: Plastic,metal
- Nominal Current: 5/6/7A
- Pin Contact : CuZn
- Socket Contact : CuSn
- Water Proof: Yes
- Metal: Type Iron
- Thickness: 203*193*15cm
- Box Type: Self Erecting Boxes
- Radiation Power: 840~1300MW
- Metal Type: Iron
- Universal Type: Fit For 80% Model Cars' Injectors
- Indian Hair: Yes

Product Description

Straight Molded Waterproof Cable Connector 4P Coding A Female M5 Connector

Lifespan (hours)	50000
size	46X44X44cm
Waterproof	IP54
Scenes	home/ hotel
Lampshade material	Metal
power supply	Battery
battery capacity	5200 mA
Support Dimmer	Yes
coating	prevent oxidation
Input voltage (V)	5V small voltage
LOGO	customizable
power cable	8ft black SVT cable
power mode	Battery/Power
light source	Incandescent light bulb

application

M5 circular connectors are used in the connection of sensors, brakes, actuators and automatic control systems. M5 sensor connector and brake connector are divided into M5 injection molding straight male connector, M5 injection molding straight female connector, M5 PCB board front-loading female connector, M5 plate soldering straight male with self-locking thread , PCB board M5 male, M5 board front / rear female.

Features

With the rapid development of industrial automation technology, automation systems integrate more and more interconnected devices, including sensors, brakes, actuators, etc. These devices need stable and reliable cables to provide power and signal transmission, and they need to work in complex environments, so they need waterproof, dust-proof, and corrosion-resistant functions. M5 cables are fast in this growing demand. developed.

M5 Connector

M5 circular connector is specially developed for the miniature sensor market and any application that requires multiple sensors within a very small area. The product line offers 3 and 4 Pins cable cord-sets and a range of panel-mounted receptacles. All connectors are either factory PVC/PUR over-molded or panel receptacles supplied with single wires or PCB solder pins, which is very compact and convenient for the application in narrow installment places
