#### Small voltage benefits

Low energy consumption design, 150 hours of power consumption is only one degree, in the case of providing enough lighting, the lower the power, the better. The light source made of semiconductor technology has a very high photoelectric conversion efficiency, so that the electric energy you provide can be turned into light to the maximum extent. DC power supply effectively eliminates additional electromagnetic losses and further reduces overall energy consumption

#### modeling

The unique shape of the Dona table lamp has always been favored by home decoration. The modern style table lamp and hollow decoration show retro connotation. Environmentally friendly and safe materials and stable power performance are the best choice for your home life.

#### how to choose

The modern minimalist style generally emphasizes the spaciousness and simplicity of the interior space in dealing with the space, and pursues the freedom not restricted by the load-bearing wall in the space plane design. Walls, floors, ceilings, furniture and even lamps and utensils are all laid out with simplicity and no decoration as much as possible.
