Brand Name	LEONKA
Place of Origin	Japan

### FAQ

Q 1. How many bundles do I need for full head? Unit weight bundles Length/inch  
Standard need for the head 100g/3.5oz 3 bundles 8 inch to 20 inch 22 inch to 30 10g3.5oz 4 bundles inch

Q 2. Why are my hair extensions getting tangled?

A: It could be caused by dry hair. Please make sure to wash & condition your hair at least once a week, twice a week is better. You can ask your hair stylist for further suggestions.

Q 3: Can they be straightened, curled?

A: Yes you can use hair straightener or hair curler to style the virgin hair. But don't do it too frequently, or the hair will be easy to get dry and tangle.

Q 4. What is your hair extension quality guarantee?

A: We are the Supplier Assessment in Alibaba, if any quality problem, we will refund you money or exchange new goods for you.

Q 5: Why the colors of hair extensions don't seem exactly as the pictures show or description says?

A: Different monitors have different displays. The same color number may have a little color difference. You could dye the hair if you need a different color.

Q 6: Can I wash & blow-dry the hair extensions?

A: You can wash them as you want. Shampoo and conditioner. We also recommend using a hair treatment on them every few weeks, because the hair is not attached to your scalp, it is not getting the oils it should be. Using a treatment/hair mask will help keep them looking healthier and shiny for longer! You will find that you don't need to wash your extensions too much. The extensions can be blow-dried on low setting, but it is not recommended to do it too often. It is best to let your hair extensions dry naturally after washing them.

Q 7: Can I dye/color the hair? A: Our virgin hair can be dyed.

As a general rule, it is easier to darken the hair than to lighten the hair. We recommend you dye dark color, but you'd better find a professional man to do this, because improper dyeing will ruin the hair. We highly recommend having your hairdresser dye the extensions as you will get the results you want, coloring them yourself always poses a high risk of not coming out the shade you want. If you can't get to a salon, always use a good quality hair dye and test a small sample first.
