Creative inspiration

Clear shapes of Intero O fully convince. So it was logical to develop an adapted electric height adjustment. Without affecting the slim and noble design. The 610 – 1270 mm height adjustment is perfectly integrated into the O-framework. For storage and technology a technical pedestal can be added to the configuration, housing the frame on one side and extending the workstation. The double workstation allows to integrate illumination systems into the framework – a clever and elegant solution. Holding the Red Dot Award, the desk excites customers and designers. And maybe you.
