

## Special Excavator Sealing Ring Seal Kit O Ring Set Box Plate

Our Product Introduction

for more products please visit us on [ladyshairextensions.com](http://ladyshairextensions.com)

### Basic Information

- Place of Origin: 00
- Brand Name: 2
- Certification: 3
- Model Number: ISO90001
- Minimum Order Quantity: 100
- Price: Rs 32
- Packaging Details: 付款方式
- Delivery Time: 供 能力
- Payment Terms: 期限
- Supply Ability: 常 包装

### Product Specification

- Material: PTFE
- Molding Style: Forging
- Performance: High Pressure
- Size: 1.50cm \* 1.80cm \* 0.60cm
- Fuel Saver Type: Electronic
- Application: Hydroseal
- Metal: Type Iron
- Thickness: 203\*193\*15cm
- Box Type: Self Erecting Boxes
- Radiation Power: 840~1300MW
- Metal Type: Iron
- Universal Type: Fit For 80% Model Cars' Injectors
- Indian Hair: Yes
- Size: 390x240x185cm
- Hair Styles: Body Wave, Straight

## Product Description

### Special Excavator Sealing Ring Seal Kit O Ring Set Box Plate

#### Basic Info.

Model NO.

SPGA

Feature

Wear-Resistant, Flame-Resistant, Tear-Resistant, Heat-Resistant, Cold-Resistant

Function

Water Seal, Rotary Seal, Fixed Seal, Dust Proof, Hole Seal, Shaft Seal, Oil Seal

Cross-Sectional Shape

as Per Drawing

Material

PTFE

More Material

FKM NBR

Transport Package

Carton

Specification

Standard or custom sizes

Trademark

Pinmo

Origin

China

HS Code

4016931000

Production Capacity

100000 PCS / Week

#### We can do it

We manufacture custom designed reinforced inflatable gaskets depending on requirements and specifications or operating application details provided by our customers. Reinforcement material that we add to inflatable seal depends on desired operating pressure and temperature. We provide choice of polyester, cotton, nylon, nomax, and kevlar reinforcement for our custom manufactured inflatable seals. Furthermore, our inflatable seals are manufactured for radially inward as well as radially outward sealing depending on application requirements.

#### Product Description:

Rubber inflatable seals are ubiquitously used across industry to achieve optimized and dynamic sealing or grip for hard to seal irregular areas, or misaligned surfaces with gaps in between as well as where repeated and rapid sealing and unsealing is a critical requirement.

Across industries inflatable seals are called different names like pneumatic gaskets or dynamic seals. American Rubber Corp has capability to custom design and manufacture inflatable rubber seals of various profiles either extruded and joined for endless gasket or full mold them in continuous molding and mandrel operations. Inflatable seal geometry, operating conditions, desired pressure, and the method and interface the seal will be installed on are some of most critical aspect of achieving desired sealing quality as well as operating life longitive from these inflatable seals.

#### Product conception

Here at APG we've invested in state-of-the-art machinery to increase the efficiency of custom fabricated items and we've created various internal processes to ensure a constant stream of high quality O-Rings. We are recognized globally as an ISO9001:2015 registered company specializing in the manufacture and supply of orings and other quality sealing, coupling, and related products. We are focused on innovation within our field and are committed to a culture of customercentricity and employee development. We continue to honor our legacy dating back to 1943, but eagerly focus on our future and invite you to experience all that APG has to offer.
