

Excavator PTFE D RING SEAL KIT,PTFE BRONZE D RING SEALS

Our Product Introduction

for more products please visit us on ladyshairextensions.com

Basic Information

- Place of Origin: 00
- Brand Name: 2
- Certification: 3
- Model Number: ISO90001
- Minimum Order Quantity: 100
- Price: Rs 26
- Packaging Details:
- Delivery Time:
- Payment Terms:
- Supply Ability:

Product Specification

- Material: PTFE
- Molding Style: Forging
- More Material: FKM NBR
- Specification: Specification
- Fuel Saver Type: Electronic
- Application: Hydroseal
- Metal: Type Iron
- Thickness: 203*193*15cm
- Box Type: Self Erecting Boxes
- Radiation Power: 840~1300MW
- Metal Type: Iron
- Universal Type: Fit For 80% Model Cars' Injectors
- Indian Hair: Yes
- Size: 390x240x185cm
- Size: 390x240x185cm

Product Description

Excavator PTFE D RING SEAL KIT,PTFE BRONZE D RING SEALS

Products

Hydraulic Seals

High Light

BRT2 Excavator Hydraulic Seal, Loader Dozer Excavator Hydraulic Seal

Material

PTFE

Hardness

80 Shore A

Color

Black

Feature

Seal Performance Wear Resistance And Low Friction Characteristics

Media

Hydraulic Oil,water,emulsions

Style

Hydraulic Seal,Back Up Ring

Function

Improve The Service Life Of Seals

Size

Standard Size;can Be Customize.

Product introduction

Silicone o-rings are known for their excellent temperature ratings making them optimal in extreme conditions where other materials would not hold up. Withstanding temperatures of over 400° F, silicone o-rings are incredibly useful for harsh temperature uses. Silicone o-rings are known to be softer than other materials and do not possess great tensile strength or tear resistance requiring users to carefully consider the needs according to their application. Silicone is a widely used material in our everyday lives and can be the ideal material for your o-ring application.

Our advantages

We are globally known for our high quality Engineered products. Our Products are efficient for energy consumption parameters at constant speed with cutting angle set to suit material, thickness minimizes the distortion of cut sheets. Fabricated out of best quality and durable materials, facilitates superb quality in downstream operations viz. pressing, punching, bending and drawing and the equipments required along with the spare parts.. We manufacture and supply to all our customers in India as well as to the International clients.

Why choose

Over 40 years of experience in earthmoving machines field

16,000 items always available in our stock

3,000 square feet of warehouse

Fast delivery

Genuine and/or Aftermarket spare parts

Technical consulting

Efficient and dynamic support

Real time research of items through our app

Ellawig companys
