

Laser CUTTING CNC 1000w Metal Steel Fiber Laser Cutting Machinery

Our Product Introduction

for more products please visit us on ladyshairextensions.com

Basic Information

- Place of Origin: 00
- Brand Name: 2
- Certification: 3
- Model Number: CNC Fiber
- Minimum Order Quantity: 100
- Price: 2.45-6.56
- Packaging Details:
- Delivery Time:
- Payment Terms:
- Supply Ability:

Product Specification

- Brand: Beckhoff
- Products Handled: Sheet Metal And Tube
- Guide Rail: Taiwan PMI Square Guide Rails
- Configuration: Bench-top
- Product Name: CNC Fiber Laser Metal Cutting Machine For Carbon Steel
- Graphic Format Supported: AI, BMP, DST, DXF, DXP, PLT
- Metal: Type Iron
- Thickness: 203*193*15cm
- Box Type: Self Erecting Boxes
- Radiation Power: 840~1300MW
- Metal Type: Iron
- Universal Type: Fit For 80% Model Cars' Injectors
- Indian Hair: Yes
- Size: 390x240x185cm

Product Description

Laser CUTTING CNC 1000w Metal Steel Fiber Laser Cutting Machinery

Quick Details

Machine Model	LX3015F(4015/6015/4020/Optional)
Power of Generator	1000-20000W
Dimension	4800*2600*1860mm
Working Area	1500*3000mm(Other size can be customized)
Max Running Speed	120m/min
Specified Voltage And Frequency	380V 50/60HZ
Max Acceleration	1.5G
Repeated Positioning Accuracy	±0.02mm

Feature

What's the feature of CNC Fiber Laser Cutting Machine?

Effective cutting size : 3000*1500mm*200mm

Raytools Fiber Laser Cutting Head

Cypcut control system

Delta servo motor

Raycus / Maxphotonics Fiber Laser

Sawteeth working table

Taiwan TBI Ball Screw,Germany Helical Rack and Pinion

Optional parts :

4th Rotary Axis for Metal Tubes

Enclosed cover,protect from laser.

Japan Shimpo Reducer

Aviation Aluminum Gantry

It is manufactured with aerospace standards and formed by 4300 tons press extrusion molding. After aging treatment, its strength can reach 6061 T6 which is the strongest strength of all gantries. Aviation aluminum has many advantages, such as good toughness, light weight, corrosion resistance, anti-oxidation, low density, and greatly increase the processing speed.

FAQ

1) I know little about laser machine, what's the laser power I should choose? It is easy to choose. Just tell us what's material do you want to cut with the machine, and the thickness of materials, then let us give you perfect solutions and suggestions.

2) When I got this machine, but I did not know how to use it. What should I do?

We will send video and English manual with the machine. If you still have some doubts, we can talk online with WhatsApp, Wechat etc.

3) If some problems happened during warranty period, what should I do?

We will supply free parts in machine warranty period after talking with our service team. We also supply free after-service forever, so any doubts, just us know, we will give you solutions as soon as possible.

4) What is the MOQ? MOQ for our products is 1 set machine. If you buy 3 sets one time, you will have the agent price, enjoy better price.

5) I am the first time to import the goods,how to do it?

We are experienced with many years, this work is not complex, we can help you.
