

## 180A Inverter Igbt Multi Process Flux Gasless Mig Welding Machines

Our Product Introduction

for more products please visit us on ladyshairextensions.com

### Basic Information

- Place of Origin: 00
- Brand Name: 2
- Certification: 3
- Model Number: MIG
- Minimum Order Quantity: 100
- Price: 3.5-16.9
- Packaging Details: 付款方式
- Delivery Time: 供 能力
- Payment Terms: 期限
- Supply Ability: 常 包装

### Product Specification

- Voltage: AC160V-270V
- Application: Inverter MIG TIG MMA
- Model: NB-280YT
- Output Current: 20A-140A
- MMA Electrode: 1.6-4.0mm
- Inspection: Provided
- Metal: Type Iron
- Thickness: 203\*193\*15cm
- Box Type: Self Erecting Boxes
- Radiation Power: 840~1300MW
- Metal Type: Iron
- Universal Type: Fit For 80% Model Cars' Injectors
- Indian Hair: Yes
- Size: 390x240x185cm
- Hair Styles: Body Wave, Straight

## Product Description

### 180A Inverter Igbt Multi Process Flux Gasless Mig Welding Machines

#### Quick Details

Material / Metal Processed:  
Aluminium alloy/Fe  
Year:  
2021  
Weight (KG):  
18.5 KG  
Usage:  
Welding  
Dimensions:  
66\*32\*51cm  
Brand Name:  
Decapower  
Place of Origin:  
Zhejiang, China  
Condition:  
New  
Wire Feeding Speed:  
15 m/min  
Rated Duty Cycle @40°C (MIG):  
60%  
Rated Output Voltage (MIG):  
23 V  
Rated Output Current (MIG):  
180 A  
Max. Load Power Capacity:  
6.5KVA  
Wire Melting Type:  
Short Circuit Transfer  
Rated Input Voltage:  
220 V

#### Description

RETOP does business through an ever-increasing focus on customers' welding challenges and applications and, ultimately, their complete satisfaction. Our passion is to improve existing products and to develop new applications that benefit our customers and meet their constantly changing need. We offer customers the best welding products and we also offer them the flexibilities in product design and construction, coupled with superior services before and after sale. With our dedicated commitment to customer services, you will find that we are easy to contact, easy to work with and easy to get information from we are here to help you.

#### Features

The SYN MIG welder is an inverter-based Half-bridge Microprocessor controlled portable welding machine. It integrates multiple welding process such as GMAW, FCAW, SMAW & GTAW, preset parameters and multiple adjustable parameters to adapt to welding of various materials and sizes. With the Digital displayer and quick Synergy regulation of welding parameters, it brings you the unique welding experience. It's not only do the welding jobs easily, but also help beginners learn the parameter setting between the wire feeding speed and ARC Volt.

What's more, the experienced operator can also intervene manually along the arc length.

#### FAQ

Q: Are you a factory or trading company?

A: We are manufacturing factory.

Q: Where is your factory located?

A: our factory is located in Baiyun district, Guangzhou, China.

Q: How can I visit there?

A: you can fly to Guangzhou Baiyun international airport and contact us to pick you up.

Q: How can I get the quotation?

A: We usually quote within 24 hours after we get your inquiry. If you are urgent to get the price, please send the message on trade management or call us directly.
