GB/T17927-1988

What is U-micco Fiber?

U-micco Fiber has many characteristics: air permeability, cushioning characteristics, water permeability, durability, safe, antibacterial properties and kind to the environment to name but a few. Mattresses and pillows made with U-micco Fiber are not prone to sweatiness and this makes it easy for you to move around and turn over in bed at night. U-micco Fiber bedding allows you to sleep as much as you want in comfort. Moreover, U-micco Fiber is widely used in hospitals and care facilities because it is easy to wash and also conforms to SEK standards* to limit the propagation of bacteria.

Choose the Mattress

If you can't sleep well there can be many influencing factors. There's many tips starting from no coffee after 3 or no screen time 1 hour before bed, but maybe it is time to take a closer look at your mattress. We spend 6 to 8 hours every night in our mattress without paying too much attention to it.

Care and Use

Washing the Cover:

1. Washing the outer cover before first use is optional.
2. Cover zips off and goes right in the washing machine.
3. Be sure to leave the cover zipped for best results.
4. Wash alone, or with the encasement only to avoid damage to the fabric.
5. Wash on cold with a mild detergent.
6. Tumble dry on low heat. Dry thoroughly. DO NOT hang dry.
7. Wash the outer cover as often as you like.
