 Hongsen
 Place of Origin:
 China
 Type:
 Foam, Bedroom Furniture
 Mail packing:
 N
 General Use:
 Home Furniture

Description

Our company is the earliest manufacturer of air fiber in China. Our goal: use environmentally friendly spinning technology to replace traditional and harmful foam products. We will continue to complete each customer's entrustment with quality and quantity, saving money and improving quality for customers , Increase efficiency!
 While creating social and economic value, improve everyone's quality of life.
 Achieve consensus with customers, reduce pollution, reduce public hazards, and leave a beautiful environment to the next generation.

ashing the core

Bring you new products with more selling points, expand your product market, increase profits, optimize production technology, and reduce the high cost of traditional complex processing. Our factory covers an area of 40,000 square meters. We have a variety kinds of mattresses, cushions and pillows, and we support customization. Our R & D center has been committed to the polymer elastomer industry for 12 years, and can meet your diversified requirements. You can directly contact the customer service for consultation, call us, or send us an email.replace traditional and harmful foam products. We will continue to complete each customer's entrustment with quality and quantity, saving money and improving quality for customers , Increase efficiency!
 While creating social and economic value, improve everyone's quality of life.
 Achieve consensus with customers, reduce pollution, reduce public hazards, and leave a beautiful environment to the next generation.

FAQ

3. Can you customize the product? Yes, all of our products can be customized, both ODM and OEM, and we also supply our own brand products to meet the needs of different customers. 4. Can you send me samples? Of course, the samples of the existing specifications can be sent to you immediately on the same day, you only need to pay for the samples and the courier fee. If it is a customized product that needs to be sent out after the factory is produced, the special request product has been successfully tested by our R&D center and produced after confirming that it meets your needs.5. Do you have products in stock? Yes, we have. But we only have standard size products. If you need a customized product, it will take some time to manufacture it. 6. Do you accept small orders? Yes, we can. If your order is less than our MOQ, if it is not a general-purpose product, it is recommended to consider the corresponding logistics cost and customized expense rate. 7. Can I have our own logo and design? Yes. We accept customized requirements for color, logo, design, and packaging 8. How long is the delivery time? According to the number of products ordered to determine the delivery time,
