#### Product Description

The comfort and unique lines the Burns Executive Chair provides will be the star of the show. Relax in elegant luxury with genuine leather on the seat, backrest, and armrests, plus a high-quality leatherette match on the back. The seat is adjustable in a variety of ways, including a standard gas lift height adjustment lever. The reclining function transitions from fully upright at 90 degrees and tilting back to 106 degrees. You can also lock the reclining position so that it will only go back to a certain point and you don't have to worry about reclining farther back than desired. The knee-tilt mechanism is placed closer to the seat front, which helps keep your feet on the floor while reclining mainly the backrest instead of the whole chair. This prevents the rocking chair effect and helps keep your feet on the ground while still increasing blood circulation and better spinal alignment. With features like these, this chair will become a classic.

#### Features

1. Backrest: Thickened striped net mesh with nylon frame.
2. Gas lift: TUV approved Class 3, maximum lifting is 300000 times, maximum load 200-250kg impact test.
3. Nylon five star legs, oxidation resistance and wear resistance.
4. Universal nylon castor,  $\phi 60$  and against noise.
5. 2PCS/1 BOX.
6. PU Cover Nylon Caster
7. TUV approved Class 3
8. PP with glass fiber

#### Ergonomic Design Special Mesh Executive Five Star Leg Chair Computer Mesh Chairs

Inhering the humanized concept the relied on ergonomics,each office chair perfectly combines the international aviation aluminum material and nylon,which is the new favorite and environmentally friendly health chair for family, entertainment and office work.
