

LED Dimmable 3000LM Beam Moving Head Light Safe CRI > 80Ra

Our Product Introduction

Basic Information

- Place of Origin: 00
- Brand Name: 2
- Certification: 3
- Model Number: AQ9088
- Minimum Order Quantity: 100
- Packaging Details: 付款方式
- Delivery Time: 供 能力
- Payment Terms: 期限
- Supply Ability: 常 包装

Product Specification

- Beam Angle: 20°-60°
- Material: Glass
- CRI (Ra>): > 80Ra
- IP Rating: IP20
- Item Type: Track Lights
- Installation: 3 Phase
- Power: 25W
- Light Source: LED
- Metal: Type Iron
- Thickness: 203*193*15cm
- Box Type: Self Erecting Boxes
- Box Type: Self Erecting Boxes
- Radiation Power: 840~1300MW
- Metal Type: Iron
- Universal Type: Fit For 80% Model Cars' Injectors

Product Description

LED Dimmable 3000LM Beam Moving Head Light Safe , CRI > 80Ra

Product Description:

The Stealth Wash Zoom LED Moving Light Head from Eliminator Lighting is a versatile moving head that's ideal for clubs and other entertainment venues, especially when it's accompanied by an optional fog machine. The head is fitted with seven 12W RGBW LEDs that allow you to create virtually any color in the spectrum, while its motorized zoom washes the room with lively hues with 4-to-45-degree coverage that makes it handy for short-throw or long-throw applications. Other features include DMX control, adjustable high-speed pan/tilt movements, and 8 internal programs. For even more excitement, the head has a strobe effect and sound-active feature. The Stealth Wash is ready for worldwide use thanks to its 100-240 VAC power supply.

Features:

voltage:	AC100V-240V, 50-60Hz
Power:	450W
DMX Channel:	20CH, 24CH
Fuse:	10A
Ballast:	E-ballas
Light source:	17R 350W
Color Temperature:	8500K
Control Signal:	International standard DMX512

Quick Details:

1. In order to guarantee the product's life, please don't put it in the damp places or even the environment over 60 degree.
2. Always mount this unit in safe and stable matter.
3. Install or dismantle should be operated by professional engineer.
4. Using lamp,the change rate of power voltage should be within $\pm 10\%$. If the voltage is too high, it will shorten the light's life; if it's not enough, will influence the effect.
5. Please restart it 20 minutes later after turning off the light, until full-cooling. Frequent switching will reduce the life span of lamps and bulbs; intermittent using will improve the life of bulbs and lights

Advantages:

The DJ VIZI CMY300 features full CMY color mixing which gives you the freedom to select from a much wider palette of colors than with a regular color wheel. The fixture also offers a standard RGBWA+UV color wheel, which allows for easy selection of popular colors. Effects include a motorized focus, motorized zoom, motorized iris, two rotating prisms (one six-facet linear and one three-facet circular), two separate color wheels, and two gobo wheels (one wheel with fixed metal gobos and one wheel with rotating/replaceable gobos). The motorized head is capable of both smooth, slow sweeps and fast, precise movements with a pan range of 540° and a tilt range of 270°.
