

## Entrance Automatic Security Turnstile Barrier Gate With Access Control

### Our Product Introduction

#### Basic Information

- Place of Origin: 00
- Brand Name: 2
- Certification: 3
- Minimum Order Quantity: 100
- Packaging Details: 付款方式
- Delivery Time: 供 能力
- Payment Terms: 期限
- Supply Ability: 常 包装

#### Product Specification

- Lane Width: 550-570mm
- IP: IP54
- Pass Speed: 30 Persons/min
- Power Supply: AC220V/110V,50/60Hz
- Drive Mode: Motor Drive
- Max Power Consumption: 200W
- Metal: Type Iron
- Thickness: 203\*193\*15cm
- Box Type: Self Erecting Boxes
- Radiation Power: 840~1300MW
- Metal Type: Iron
- Universal Type: Fit For 80% Model Cars' Injectors
- Indian Hair: Yes
- Size: 390x240x185cm
- Hair Styles: Body Wave, Straight

## Product Description

### Entrance Automatic Security Turnstile Barrier Gate With Access Control

#### Product description:

Cost Effective Small Swing Barrier Turnstile AG-PX36121802 is a small size swing barrier turnstile, due to its smaller size, the price of this turnstile gate is better, and its transportation is also easier. It fits in places for smaller space. The turnstile gate can work with peripherals such as face recognition, fingerprint recognition, bar code scanning device, ID/IC card reader and is compatible with ticketing system and campus system as well.

#### Product features:

1. Counting and alarm functions;
2. The material of the flap (retractable arm) is acrylic or soft flap. The colors are red, black and blue. The amount can be customized separately
3. Case material is mainly 304 stainless steel, other materials can also be customized
4. Remote control switch
5. Dynamic face recognition
6. Can add emergency escape function, in the case of special emergency, start by remote button
7. The communication interface is mainly RS232 / RS485, other interfaces
8. Box thickness standard 1.5mm can be customized 2.0mm
9. Fingerprint recognition of time attendance

#### Product specification:

Dimension	1200*185*980mm
Material	SUS 304 stainless steel
Motor	Brushless DC motor
Access width	600mm
Access direction	Single bidirectional/Bi directional
Access speed	30 p/m
Operating temperature	-20 ~70
Power supply input	AC110~220V±10%
Gate reaction time	0.2s
Indication way	Acoustic alarming, LED indicator

#### Product advantages:

1. The speed gate turnstile is with high-quality DC brushless motor is configured and advanced servo control system is carried to truly achieve precise control, stable performance with no maintenance.
2. Lossless mechanism structure is based on German technology adopted to ensure long lifespan.

#### FAQ:

Q: Did your system have software interface?

A: Yes. We have our own management software.

Q: How does this system connect the access control?

A: Equipment could link to others by TCP/IP or Wiegand.

Q: Does ticket barcode supported?

A: Yes, many access control methods for options. Customized management support.

Q: What will happen if power was cut off?

A: The barrier will open automatically if power cut off.

Q: Is it difficult to install it?

A: It's easy to install and we will offer the installation video.
