

CNC Contral Metal Fiber Laser Cutting Machine 1000w G . Weik

Our Product Introduction

for more products please visit us on ladyshairextensions.com

Basic Information

- Place of Origin: 00
- Brand Name: 2
- Certification: 3
- Minimum Order Quantity: 100
- Packaging Details: 付款方式
- Delivery Time: 供 能力
- Payment Terms: 期限
- Supply Ability: 常 包装

Product Specification

- Application: LASER CUTTING, Smallmetal Plate
- Applicable Material: Metal
- Condition: New
- Laser Type: Fiber Laser, Continuous Wave
- Warranty: 3 Years
- Feature: Fully-enclosed
- Product Name: CNC Contral Metal Fiber Laser Cutting Machine 1000w G
- Working Area: 1300mmX2500mm
- Metal: Type Iron
- Thickness: 203*193*15cm
- Box Type: Self Erecting Boxes
- Radiation Power: 840~1300MW
- Metal Type: Iron
- Universal Type: Fit For 80% Model Cars' Injectors

Product Description

CNC Contral Metal Fiber Laser Cutting Machine 1000w G . Weik

Main features:

1. High-performance laser source and stable operating system, which makes the best cutting effect.
2. The machine owns perfect cooling system, lubrication system and dust removal system, which make sure the machine can operate stable, efficient and durable.
3. There is a casting beam on the machine, which let the machine more rigidity, stable and shockproof.
4. The machine has automatic height adjustment, which keeps the focal length constant and stable cutting quality.
5. The machine with a confined working space, which improves the dust removal effect and avoid light pollution.
6. The machine is used for cutting a variety of metal, the cutting effect is excellent and stable.

Technical parameters of metal laser cutting machine:

Product Name	CNC Contral Metal Fiber Laser Cutting Machine 1000w g.weike
Power	500W, 1000W, 2000W, 3000W, 4000W, 6000W, 8000W
Working area	3000*1500mm
Maximum cutting thickness	20mm
Position accuracy	0.02mm
Maximum moving speed	120m/min
Operating temperature	0 -40
Control system	Cypcut
Drive type of X, Y axis	Imported servo drive(Panasonic, Yaskawa, Japan)
Machine size(L*W*H)	8150*2825*2125mm
Cooling System	Water Cooling
Technical Class	Continuous Wave Laser
Structure Type	Gantry Type
Laser Technology	Laser Vapor Cutting
Package	Wooden case
Origin	China

Product application:

Product Application of CNC Contral Metal Fiber Laser Cutting Machine 1000w g.weike. Metal laser cutting machine can carry up to 8000w laser power, so cutting some thick plate, it is a very good choice. For example, agricultural machinery, textile machinery, food machinery and construction machinery and other large machinery and equipment manufacturing, usually use high power fiber laser cutting machine for processing.

Suitable for stainless steel, carbon steel, silicon steel, aluminum alloy, titanium alloy, galvanized steel, aluminum-plating zinc plate, copper, and other metals.

Why choose us

Packaging Details: laser cutting machine package:

1. Whole film packaging machine;
2. Anti-collision package edge;
3. Fumigation-free plywood wooden box with iron binding belt.

Delivery Detail: Shipped in 15 days after payment
