

## Proculus 4.3 Inch Uart Touch Screen TFT Uart Ttl Module Displays LCD Waterproof

Our Product Introduction

for more products please visit us on [ladyshairextensions.com](http://ladyshairextensions.com)

### Basic Information

- Place of Origin: 00
- Brand Name: 2
- Certification: 3
- Minimum Order Quantity: 100
- Packaging Details: 付款方式
- Delivery Time: 供 能力
- Payment Terms: 期限
- Supply Ability: 常 包装

### Product Specification

- Place Of Origin: Jiangsu, China
- Size: 4.3"
- Brightness: 400 Nit
- Application: Industrial Application
- Interface: RS232/RS422/RS485/TTL
- Function: Waterproof
- Metal: Type Iron
- Thickness: 203\*193\*15cm
- Box Type: Self Erecting Boxes
- Radiation Power: 840~1300MW
- Metal Type: Iron
- Universal Type: Fit For 80% Model Cars' Injectors
- Indian Hair: Yes
- Size: 390x240x185cm
- Size: 390x240x185cm

## Product Description

### Proculus 4.3 Inch Uart Touch Screen TFT Uart Ttl Module Displays LCD Waterproof

#### Production Inspection:

Materials are processed to tested in all sections including inbound inspection, PCBA manufacturing as well as unit-quality-control.

#### Aging Test:

**Aging test up to 72 hours at 55 is mandatory before delivery, in order to ensure the annual RMA getting lower than 0.5%**

#### Line Production:

Reliability test applied including high/ low temp. test, vibration-simulation test to ensure no failed units in use. This test are in use at SMT, Assembly Section and QC separa.

#### Product details:

Model Number	P48272V43I_T30
Display Size	4.3inch
Resolution	480*272
Brightness	400 nit
Memory	128M, extended to 1G at maximum.
Peripherals	Buzzer, RTC, Audio, USB

#### Product advantages:

- 1, High-quality and reliable Hardware .
- 2, Intuitive and frequently updated Software.
- 3, Simple and easy-to-learn Communication Protocol.
- 4, Short Lead-Time.
- 5, Well-trained Support Team.
- 6, Cost-effective complete GU.

#### FAQ:

Q1. What company are you ?

Proculus Technologies, is the leading innovative company in the industry of embedded devices, focusing on All-in-one TFT LCDs including UARTs and Android Solutions.

Proculus Technologies provides a completed solution on Intelligent Display, including intuitive visual interface software, high-quality display module, accessories as well as dedicated technical support.

Q2. What kind of interface does the display have?

The display set is using UART serial port (USB/RS232/TTL) to communicate with any kind of MCU unit by HEX command sets.

Q3. What products line/category do you have ?

Android Tablets and UART LCMs.

Android Tablets designed for user who run the App on device which involved with remote control, Internet connection, as well as multiple I/O ports. It is more complex than UARTs and highly customized.

UARTs is mostly used in industrial level products including medical device, engineering etc. It has 5 commands only communicating with microcontroller and visualized software UniView AD® enhanced the efficiency of development in GUIs.

Q4. What kind of display size you can supply?

UARTs: From 2.8" to 18.5"; Android Tablets: 5" to 18.5".

Both solution accepts customizations of board with MOQ 300pcs.

Q5. How can we start to use your products?

Sample are welcome to purchased from alibaba.com with 1-2pcs in the beginning to test if product valid to your use. For those of customers who bought UARTs, please contact customer service to enable your serial key for using of UniView AD®

Q6. Is Software UniView AD® free of charge?

For first-time user, we offer a valid-15days free serial key since the packs arrival to evaluate. If you need more time to test, \$100 usd would be charged however it going to be refunded in premise that product step to production.

Q7. How to test the sample of UARTs ?

Please go to web <http://www.proculustech.com/support/downloadflow> to understand more.

Q8. Do you have local support in my country?

We have branch or distributors in United Sates, Italy, Spain, Brazil. If your feel local communication is preferable or Spain/Portuguese speaking is must, please let us know to get local support.

Q9. How about lead time?

Sample: 1-2weeks.

Production:3-4weeks.

Q10. Why does P.BOX are priority to purchase?

No matter what size are you targeted in, we highly recommend customer to put 2.8" Pbox Starter kits in cart at lowest cost to perform with your controller including all accessories that you need. Please read following link for starter kit:

<http://www.proculustech.com/product/starterkit>

Q11. What kind of software assistance do you have for Android development?

Completed SDK of Android are available to customer for Android O.S. customizations including Android 5.1/7.1/ 8.1 and Linux. Our business stay away from App design but underlying system are fully offered without charge.
