

Rhing Industry X-Ray Inspection Testing Machine For Shoes Needle Detector Food

Our Product Introduction

Basic Information

- Place of Origin: 00
- Brand Name: 2
- Certification: 3
- Minimum Order Quantity: 100
- Packaging Details: 付款方式
- Delivery Time: 供 能力
- Payment Terms: 期限
- Supply Ability: 常 包装

Product Specification

- Model Number: XRY-9000D
- Usage: Detection Of Foreign Objects
- Weight: 700Kg
- Size: 3500*1300*1795mm(l*w*h)
- Certification: ISO
- Warranty: 1 Year
- Metal: Type Iron
- Thickness: 203*193*15cm
- Box Type: Self Erecting Boxes
- Radiation Power: 840~1300MW
- Metal Type: Iron
- Universal Type: Fit For 80% Model Cars' Injectors
- Universal Type: Fit For 80% Model Cars' Injectors
- Indian Hair: Yes
- Indian Hair: Yes

Product Description

Rhing Industry X-Ray Inspection Testing Machine For Shoes Needle Detector Food

Product description:

XIS-9000D is widely used for the detection of foreign objects in various foods, pharmaceuticals, beverages, etc. (for example: metal, stone, glass, bone, rubber, etc.). Not only that, but also the device can realize multi-point miss detection and shielding. Segment detection, liquid level height detection, high-speed rejection detection, remote remote control, integrated real-time management and other functions.

Based on intelligent image analysis technology, XIS-9000D can effectively detect tiny foreign objects in products such as metal, stone, glass, bone, rubber and so on. In the food, medicine, beverage and other industries, food safety management HACCP and product quality have been widely used and have established a good reputation with excellent performance.

Applicable products: special models for glass bottles (detecting bottom glass fragments).

Product specification:

Model	XIS-9000D
Optimum detection accuracy	plumbum:φ0.2mm,stainless steel ball:φ0.4mm,ceramic ball:φ0.8mm, bone:φ0.8mm,glass:φ1.0mm
Detection size parameter	Maximum detection width :100mm Maximum detection height :300mm
passing the largest size	350*310mm(width*height)
The width of conveyor belt	85mm(can be customized)
The height from conveyor belt to guound	1100±30mm
The speed of conveyor	10-100m/min
Bearing capacity	10Kg
X-ray output	40-80kVp/0.2-5mA
X-ray leak	<3μSv/h(<International regulations 10μSv/h)
Detector type	Linear scan
Direction of scan	Double viewing angle
Pixel size	0.4mm
displayer	15"LCD touch screen
Operation type	Operation with touch screen
system	Windows 7
Support data interface	USB
Parameter setting	self-learning&manual adjustment
Casing material	SUS304
Conveyor belt matetial	PU
Air conditioner	internal recycle industrial air conditioner, automatic temperature control
Protecting type	Detachable protecting curtain
Clean way	tool-free detachable conveyor belt ,easy to clean
Power	AC220/230V,50/60Hz
Work environment	temperature:5-35 /humidity:30-85%RH(no condensation)
Machine size	3500*1300*1795mm(length*width*height)
Machine weight	700Kg

Product advantages:

1. Comprehensive testing: It can detect large foreign objects such as metal, non-metal, etc., such as: metal, glass, stone, bone, ceramic, hard rubber, hard plastic, etc.; product properties are widely applicable, such as: plastic packaging, aluminum foil Packaging, glass filling, metal canning, bulk material testing, etc.
2. high-speed detection: the world's leading computing processing capacity, up to 120 m / min detection speed, greatly meet the production efficiency.
- 3, excellent detection accuracy, to ensure product quality and protect the reputation of the user brand.
- 4, rich expansion features: multi-point omission detection, defect detection (product defects, packaging defects) shield segmentation detection, liquid level detection, high-speed rejection detection, remote remote control, integrated real-time management and other functions.
- 5, easy to operate: 15-inch touch screen operation, self-learning function, intuitive and simple operating experience. Automatically save detection images for easy tracking.
- 6, green design concept: all accessories are in line with food requirements, the amount of radiation leakage meets the US, EU CE standards.

FAQ:

Q: Are you trade company or manufacturer?

A: Fangji is a manufacturer who has more than 10 years experienced for security products.

Q: Where is your company? Can I come to visit?

A: We are in Shenzhen, China and welcome you to visit us anytime!

Q: Do you ship worldwide?

A: Yes,sure. we ship worldwide by air, by sea and by express etc.

Q: Can you provide customized products?

A: Yes, sure. Just provide your demands and requirements, then we will provide you the best items.
