## Product Description

### Express Shipping Kraft Bubble Mailing Bag Recycled Biodegradable Padded

#### Product description:

Honeycomb paper padded envelopes are a great addition to our range of eco-friendly padded bags. The way that the honeycomb paper is cut adds cushioning and some spring and when sandwiched between two layers of tough kraft paper creates a well-padded barrier to protect your products in the post.

Like any other padded bags, they come with a self-adhesive strip which allows you to seal them quickly and securely.

Unlike many other padded bags that contain bubble made from polythene, these papers padded bags are made completely from paper, making them not only easy to recycle but fully biodegradable.
