Product Description

Product Description:

Our wigs are made from laminated material, which makes them durable and long-lasting. The front lace wig design ensures that the wig looks natural and blends seamlessly with your own hairline. The wig is available in a range of different voltages - 60/125/250 V AC/DC - so you can be sure that it will work with your electrical system, no matter where you are in the world.

At our company, we pride ourselves on offering OED and ODM services to our customers. This means that we can customize our wigs to meet your specific needs and preferences. Whether you want a different hair color, length or texture, we can work with you to create a wig that is perfectly tailored to your requirements.

The resolution of our wigs is 240*320, which means that you can expect a high-quality, sharp and clear image. This is especially important if you plan on wearing the wig for special occasions or photo shoots.

So why wait? Invest in one of our Natural-Looking Curly Human Hair Wigs today and experience the confidence and glamour that comes with having a perfect head of hair.
