FAQ

Q1. Is the hair virgin unprocessed?

A: Yes, the hair is cut from one donor with full cuticle aligned,no acid bath, natural unprocessed.

Q2. Will the hair shedding or tangle?

A: The hair is double weft weaving with no shedding. And as virgin cuticle aligned with no tangle. It could last over a year if taken good care.

Q3. Why the hair has grey hair?

A: As virgin hair, we keep its original state. We will pick out the grey hair before packing, but please kindly understand there might be some minimum exist in the bundle

Q4. How many bundles for a full head?

12"-14": 2 bundles, 16"-20": 3 bundles, 22"-28": 4 bundles or more

Q5: How to distinguish human hair with synthetic hair?

Human hair has natural protein. It is easy to tell by burning:

After burning, human hair will be ash , but synthetic hair will be sticky ball. And when burning, human hair shows white smoke, while synthetic hair shows black smoke. And synthetic hair burning smells like burning plastic, but human hair burning like hair scorching smell.

Please note: Human hair may have few gray hair and split end. It is normal and not a quality problem.

What Is Virgin Hair?

Virgin hair means that the hair is completely natural and unprocessed without any chemicals (such as chemical perms, relaxing agents, or coloring dyes). Since the hair is completely natural, there has been no damage to the cuticles or the true structure of the hair (including its color and texture).

The hair's cuticle layer actually protects the hair, and provides a natural luster as hair naturally appears growing from the scalp. Keeping the hair cuticles aligned and running in the same direction help to prevent tangling and matting. This is very important when it comes to hair extensions, because you want a quality install that will last you as long as possible.

Each bundle of Virgin Hair is coming directly from one person's head, this ensures that varying cuticles and textures are not being mixed with other types of hair. This is also known as, Single Drawn hair. The ends will have a natural tapered look, as opposed to a blunt cut. Virgin hair is considered the best quality of hair, which is known to last for 1-2 years with proper care and installation. Virgin Hair also offers the most versatility when it comes to coloring and styling.
