4. Curl holding after washing
5. Could be flat ironed and restyled
6. Clean weft no lice

How to care hair?

Here is some hair care tips for your reference, hope it's useful for you.

1. DO NOT wash hair too frequently, this will lead to hair becoming dry.
2. DO NOT brush hair from the root to end directly and handle gently; Brush the hair starting from end section, first 2 inches to end, then 4 inches to end, then 6,8,10 inches etc, higher and higher until you reach the root.
3. Curly texture, body wave & deep wave hair needs more care than straight hair. Never brush hair too strongly, that will definitely lead to shedding & even breaking of the hair.
4. Do not cut the weft, this leads to shedding. If you must cut for installation always seal the ends.
5. Always use non-sulfate shampoo's & conditioners.
6. Do not put excessive heat on hair, because it will cause split-ends & cause breaking of the hair.
