### Feature

Lace front wigs feature a basic wig cap with sheer lace in the front section – typically 1.5" to 3" of sheer lace around the forehead. Individual wig hair fibers are hand-tied to the lace section in front to create a natural, gradual hairline that doesn't look heavy or artificial. Lace front wigs are great for women who like to wear their hair down and experiment with center and side parts without showing the edges of the wig.

Full lace wigs cost more than lace front wigs, but have the most natural look and versatility for styling. A full lace wig features sheer lace material over the entire wig base. This means you can part your hair in any direction or pull it up into a high ponytail without revealing the base of the wig. Full lace wigs are best for women who like to wear a large variety of hairstyles (up and down) and want the most natural appearance.

### Hair protection directions:

- 1) Wash your hair clean and dry it completely before applying the weave.
- 2) When washing, use gently running water, lightly rub hair and scalp.
- 3) To maintain curly hair or wet look, lightly apply gel mouses, or oil sheen, oil sheen is not recommended for bonded hair, oil may cause weave to ship out.
- 4) When combing, always comb bottom of hair first and work your way up to the root.
- 5) When removing, please always consult your professional beautician.
